Please consider that our staff members have families as well and would like to leave the center on time or have training courses to attend right after closing hours. Excessive late pick-up is abusing our policy and may be subject to dismissal of enrollment. Excessive is considered more than 3 late pick-ups in a month's period.

**School Readiness Assistance Participants (SRA):** MLLP accepts payments by SRA through the AR Department of Education (ADE). Parents are responsible for applying for SRA through ADE and following all requirements to maintain their arrangement with ADE. The registration & supply fee is *not* covered by the agency and must be paid by the parent (if applicable).

**There will be a tuition co-pay charge that parents will be financially responsible for.** Our center charges the cap difference of SRA rates and current center rates for certain agency programs. This is determined by what type of assistance you are approved for.

ADE will only pay for a certain number of absent days. Please check your agreement for the maximum number of days you are allotted each quarter. *You will be financially responsible for the excessive absences beyond the allotted days allowed.* Tuition will not exceed the amount of current center rates.

Full tuition must still be paid for the week.**

**Vacation Credit:** If your child has been enrolled for one full year (12 consecutive months) from the date of enrollment, you are eligible for a one-week credited vacation per year. Your child may not attend during vacation week. A drop-in daily fee will apply if attending during a scheduled vacation. Vacation days must be used in one full week and may not be carried over to the next year. If vacation is not used during your child's

eligibility year, it will be considered voluntary forfeited. Vacation week may NOT be used towards a two-week notice withdrawal cancellation.

**Dismissal or Suspension:** Mary's Little Lambs Preschool may consider termination of a child's enrollment if it is determined that continuation is not in the best interest of the child. Appropriate steps will be made prior to possible termination (ex: parent conferences, TA assistance). Termination may occur on a case-to-case basis when the following occurs:

- Parents fail to pay fees.
- Parents use offensive language or harassing staff.
- Abuse of the policies and procedures.
- Abuse of late pick-up policy.
- Continued enrollment of the child becomes hazardous to the health and safety of him/her self or other children.

**Voluntary Withdrawals:** Should a parent decide to cancel your enrollment agreement voluntarily, you must notify the Director or Assistant Director in writing 2 weeks prior to removing your child from our care. If a 2-week notice is not given, parents will still be financially responsible for 2 weeks of tuition. If payment is not made for the withdrawal, it will automatically be turned to a collection agency.

If Bentonville Schools close for the second full day or more, please continue to watch TV 40/29 or KNWA and Facebook for our operational announcement. The time we open, or close may be modified depending on the severity of the weather. Parents will receive closing notification via ProCare app. Visit [www.4029tv.com](http://www.4029tv.com) or [www.nwahomepage.com](http://www.nwahomepage.com) for all school closings. **We do not pro-rate or refund any closings. If your child arrives late, please try to drop your child off before rest time or after so that there will be minimum interruptions for those children who are resting.

**Items from home:** Children are *not allowed* to bring toys or any form of games to the center. We will not be responsible for any missing or broken items or replacing or reimbursements for items brought from home. Exceptions include special times such as share-and-tell or theme weeks. Teachers will inform you of these types of events.

**Biting Policy:** We understand that biting is part of a child's growth and development. This is common for children aged 12 months up to 36 months. Children bite for many different reasons: teething; frustration or anger; a way to communicate their feelings when they are frustrated or if they want something; ownership (for example, a toy); curiosity; attention; Sensory Processing Disorder or postural instability/body weakness (see physical or speech therapist for further explanation).

Our staff members try their best to prevent biting by intervening as quickly as possible and redirecting the children. However, biting can happen at any time without warning or a known reason. If biting occurs, the biting child will be corrected of the behavior and redirected from the area immediately. **\*\*NOTE: Children under the age of 3 or children with special needs may be excluded from protocols. These decisions will be based on a case-to-case basis.**

**Biting Protocol:**

- If your child bites more than once in one day, your child *may* be suspended for the rest of the day or the following school day.
- Excessive continued biting within a one-week period *may* result in suspension for the rest of the day or the following school day.
- If the skin breaks and there is blood present, your child *may* be suspended for the rest of the day or the following school day.

\*\*\*If your child is suspended, tuition must still be paid in full during that week of service.

**Discipline Policy:** Discipline will be appropriate to the developmental level of the child. We use Conscious Discipline methods. Positive guidance and re-direction will be enforced. Children will be given choices when resolving a situation and will also be asked for their own input on how to make the situation better. This teaches them how to make positive, responsible choices and to get along with other children. In most instances, children only need a few minutes of time away from the situation. **Discipline will never be physical or associated with food or toileting.**

## Shaken Baby Syndrome

- When a child less than one year old is shaken, it can damage the child's brain, causing blindness, brain damage, paralysis, or even death. This damage occurs because babies have large heads and very weak neck muscles. When a baby is shaken, the brain moves inside the skull, and this motion can cause the brain to tear, swell, and bleed.
- Older children can also be injured. No child of any age should ever be shaken, and it is considered a form of child abuse. In America every year, treatment is sought for an estimated 1,200-1,400 children who are shaken and of these victims, 25-30% will die as a result of their injuries.
- Some symptoms of Shaken Baby Syndrome are irritability, vomiting, sluggishness, not sucking or swallowing, eyes are not focusing or tracking movement, or pupils are unequal in size.
- It is important to help prevent Shaken Baby Syndrome by educating others about the dangers of shaking children. Talking to your early childhood provider, babysitter, family members, and anyone else who might be caring for your baby is the best way to communicate with them.
- If your child is crying, check to see if the baby is hungry or wet; gently walk with the baby or try to rock him; take the baby for a ride in a stroller or car; place the baby in a safe place, such as a crib or playpen, and allow yourself some time to calm down for a few minutes.
- Ask for help: call a friend, neighbor, or relative to help; sing or talk to the baby; comfort your child by rubbing his back; offering him a noisy toy; or turning on some calming music.
- There is a period of time in a baby's life when they cry more than any other time. It is called The Period of PURPLE Crying. Visit <http://purplecrying.info> to watch a great video and gain more information about The Period of PURPLE Crying.
- Most importantly, think about how much you love your child and how much he or she depends on you.
